NOTICE

The Chelsea Selectboard will hold an informational forum on May 14, 2013 at 7:00 p.m. at the Chelsea Town Hall (296 VT Rte. 110) to discuss and answer questions about the possibilities of developing road facilities at Heath Field.

The above noticed forum was attended by approximately 50 people . The status of the current appeal to the Environmental Court was discussed. The permitting for the sandpile and a garage if located on Heath Field, other sites and the costs to develop road facilities and the ongoing search for another site were topics discussed at the forum. It was emphasized that any development would not encroach on any of the playing fields.

The majority of those present agreed that a non-binding vote would be good to see if the voters support the Selectboard pursuing the Heath Field to develop road facilities or not. June 4, 2013 was selected as the date for the vote.
