

Notice Received from the State about Public Water Systems:

From:

Jeff Girard

Compliance and Certification Manager, Public Drinking Water Program

Agency of Natural Resources
Department of Environmental Conservation
Drinking Water & Groundwater Protection Division
1 National Life Drive
Davis Building, Fourth Floor
Montpelier, VT 05620-3521

Instruction to Disinfect

The Drinking Water and Groundwater Protection Division is requiring all community and NTNCs to disinfect, if not already doing so. The public needs to have confidence that their drinking water is safe and has been disinfected to inactivate any viruses or other pathogens that may be present. We have learned that coronavirus is easily inactivated with disinfection.

This Notice came in over the weekend, and the Town of Chelsea Water System has started Chlorination for Disinfection, as per order and procedures.

Any questions or concerns can be directed to Nolan LaFrancis – Water System Operator 685-7727, or Town offices 625-2023.
