This project may be subject to provisions of VT Stream Alterations General Permits; and is subject to the “Low Risk Site Handbook for Erosion Prevention and Sediment Control”, and the Manual on Uniform Traffic Control Devices. The contractor is responsible for understanding and complying with all of these permits and documents. The municipality must ensure all participating contractors have the prerequisite experience, therefore contractors wishing to bid must submit at least one construction reference from a successful project similar in scale to this one for review. This reference must be included with the project bid packet.

Bidders should note that a preconstruction meeting with the Stream Alterations Engineer may be required prior to the start of work. The Stream Alterations Engineer for this project is Jaron Borg. Jaron may be reached at (802) 371-8342, or [Jaron.Borg@vermont.gov](mailto:Jaron.Borg@vermont.gov).

The Town of Chelsea Selectboard reserves the right to reject any or all bids and to accept any bid deemed to be in the best interests of the Town of Chelsea. Incomplete bid packages will not be considered. Please be sure to use the form provided on the Town of Chelsea website.
